CORE COMPETENCES

Resource Acquisition and Sustainment (RAAS)

Austability's RAAS is based on clearly defined austere, conflict and post conflict environments supporting scalable expeditionary integrated base operational support services. We provide mission critical remote installation integrated support services (RAAS).

Advisory and Knowledge Transfer (AKT)

Austability's in-house expertise and globally acknowledged leadership, backed up by unique network of specific subject matter experts and industry partners enables implementation and delivery of internationally accepted and recognized Train, Advise and Assist (TAA) frameworks.

DIFFERENTIATORS

- Austability is able to understand the operating environment and develop sustainable, simple, and deliverable associated strategies and countermeasures.
- Austability's mature operational ecosystem provides a significant difference in every project with which it is engaged.

SERVICE MANAGEMENT GOVERNANCE

The AG approach aims to provide the FVEY government agencies, and their allied partners need to operate overseas on operations, in expeditionary or austere environments via application of 5 step Austability Service Management Governance:

- Understand client needs and develop strategy
- Design concept of operation
- Implement concept of operations
- Provision of required services
- Continuously identify and apply improvement
